Objective

To obtain professional employment utilizing my technology-focused skills as project manager, and business analyst.

Relevant Professional Experience

May 1995 to Present

Project Manager, Senior Web Architect, Business Analyst

New World Media, Inc., Fair Haven, NY

Project manager for the assorted resources and finances of multiple Internet business solutions. Crafted the architectural structure of over 70 successful Internet sites by focusing on business objectives and issues of graphic design, technology, communication, and marketing. Created business strategies, and pricing and revenue models for these solutions. Managed the implementation and deployment of these solutions.

Support sales teams by providing technology guidance and information about successful Internet strategies, online business models, industry trends, and Internet futuring.

October 1991 to May 1995

Senior Instructor - 4 years

New Technology Advisor - 2 years

General Manager - 4 months

The Learning Connection, Syracuse, NY

Conducted classes of adult learners using various personal computer hardware and software solutions. Followed industry trends to find alternative delivery methods to classroom instruction. Managed all aspects of coordinating company resources including instruction, hardware, software, student registrations, and instructional materials. Developed comprehensive Lotus Notes applications to facilitate company communications and all aspects of resource allocation. Became fluent with most software products on the market during this time period, (MS-DOS, Windows, Macintosh).

July 1989 to August 1991

Education Specialist

BAKA Computers, Inc., Fayetteville, NY

Charged with the responsibilities of servicing Syracuse University, SUNY Environmental Science & Forestry, SUNY Health Science Center, and SUNY Oswego. Duties included consulting and recommendation services regarding Apple Macintosh computers, peripherals, and software to faculty, staff, students, and academic departments of these institutions. Job involved extensive technical ability to perform troubleshooting, service, and maintenance, as well as network connections and configurations. Extensive practical knowledge of available software packages.

Computer Skills

Fluent with Windows (NT, 98, 95, 3.1) and Macintosh operating environments. Experienced with Unix, Linux, and MS-DOS.

Comprehensive skills with Microsoft Project, Excel, Word, and PowerPoint, QuarkXPress, Adobe Photoshop, InDesign, and GoLive, and FileMaker Pro. Practical experience with virtually all mainstream software products released in the past 10 years as well as the languages and technologies utilized for Internet development.

Other Professional Experience

July 1999 to March 2000

Technology Project Manager

Oswego County BOCES, Mexico, NY

Managed the resources and finances of a LAN support and repair team covering 9 school districts throughout Oswego County. Developed a process management (Help Desk) system using FileMaker Pro to coordinate the activities of this team and the thousands of pieces of equipment they handle yearly. Began the process of Web-enabling this solution.

October 1997 to Present

Computer Consultant - Part-time

Oswego County BOCES, Mexico, NY

Performed assorted computer technical support tasks for administrative and instructional staff. Computer platforms supported include Apple II, Macintosh, Windows 3.1, 95, 98, and NT. Participated in tasks involving the technical support of Novell and Windows NT issues on a TCP/IP-based network.

September 1988 to June 1989

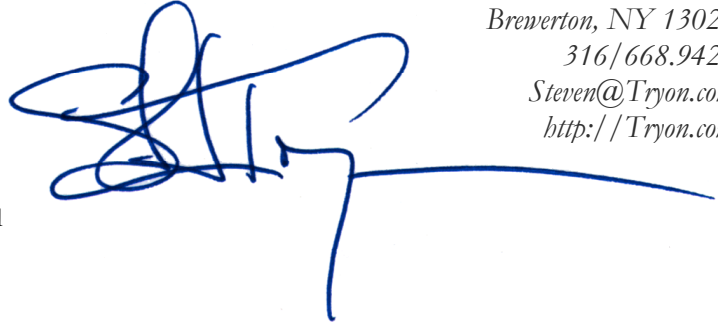

Production Director

Wallace & Daniel Publishing, Inc., Syracuse, NY

Responsible for the weekly production of The Syracuse Sports Journal, a 24 page, tabloid-size sports publication. Duties included layout, graphic design, final pagination and mechanical preparation of pages, overseeing production staff, and maintenance of computer operations.
